

RAILWAY PERFINs - ADDITIONAL INFORMATION

Reg Powell has shown us a cover which, on the face of it, would indicate a new die used by the London office of the Grand Trunk Railway of Canada. It is a postcard bearing a King George V 1½d perfinned T 7 5½mm and postmarked London March 16 1922. The reverse side has the return address of the GTR as Dashwood House, 9, New Broad Street, London, E.C.2.

The card acknowledges receipt of a letter with enclosures which will receive attention, and is addressed to F Tanqueray Esq Solicitor, Woburn, Beds. We believe, therefore that the perfin is more likely to be that of Mr Tanqueray who sent return postage to ensure a prompt reply.

Does anyone have this perfin with Bedfordshire postmarks? Similarly, does anyone know if ther arc Solisitors still practising in Woburn under the Tanqueray label who may have the perforating machine tucked away?
